

Amount of the scholarship

The scholarship covers the registration fee for an initial master's programme and the basic coverage of health insurance. Furthermore the student receives an allowance, the amount of which is established by the board. International Office is responsible for the administration.

Would you like to support this initiative and make a contribution?
All the information needed is available in this brochure or online at
<http://wet.kuleuven.be/scienceatleuvenfund>

Jos B. Peeters, chairman of Science@Leuven: *"By supporting young, brilliant foreign students to study at our Alma Mater and to get the degree that will make a quantum difference in their life, we give these young people a unique chance not only for their own development, but also for their environment. Furthermore we connect with the decision makers of the future. If Flanders wants to continue to play a role in the global networking economy, it is crucial to have such goodwill ambassadors in the growth centers of the world."*

Na Wang (a master student in Geography): *"It is my great honour to receive a Science@Leuven Scholarship as a student majoring in geography at K.U.Leuven. Without the grant, I would never have had such a wonderful opportunity to study with so many distinguished geographers, to communicate with innovative minds from all parts of the world and to be exposed to diverse cultures in central Europe. Science@Leuven paves the way for the fulfilment of my dream to improve our living space as a geographer."*

Peter Lievens, dean of the Faculty of Science: *"In particular for the better foreign students, the possibility of winning a scholarship works as a recruiting tool. By attracting them we want to raise the level of our master's programmes even more. Our group of PhD students is already very international, which is a valuable asset for the quality of our research."*

The Science@Leuven Fund is managed in cooperation with the Leuven University Fund. The Leuven University Fund is the central advisory organ for patronage and sponsorships at the K.U.Leuven.

KATHOLIEKE UNIVERSITEIT
LEUVEN

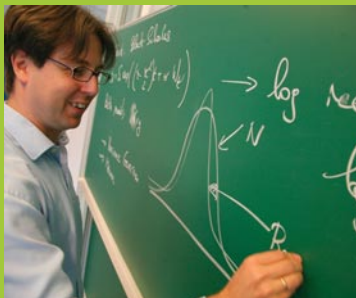

Science@Leuven Fund

Do you care about knowledge? Do you think it is important for the Faculty of Science of the K.U.Leuven to encourage motivated and talented foreign students to come and study at this university? Because not all of the promising scientists have the financial opportunity to show their talent, they are offered a chance to apply for a Science@Leuven Scholarship.

Rubik's Cube® used by permission of Seven Towns Ltd. www.rubiks.com

Help them by contributing to this fund, as a company or privately!

Contributing to the fund is an excellent way to support society. You can donate a **named scholarship** to honour someone who is dear to you. Have you lost someone you love? You can commemorate this person by giving a less fortunate scientist a chance for a brilliant future.

If you yourself are an **alumnus**, a contribution to this fund may show your appreciation for our programmes, our faculty, our professors and their assistants.

Supporting this fund as a **company** not only gives you visibility to our alumni, employees, and students, it also is the ideal way to show your goodwill to society. With a full named scholarship, there is a possibility for individual cooperation.

Support what you believe in, invest in the future and support this initiative.

How does it work?

The fund addresses itself to strongly motivated candidates, who have not yet studied or worked at the K.U.Leuven before and achieved a bachelor's degree with distinction (a degree that gives them the right to start a master in sciences) at a foreign university. The students are selected based on quality. After graduation, they can become an ambassador for the programme or can make contributions to your company.

The programme committee of the programme the student applies for, gives the permission to start and judges the applications. They also rank the applications that are withheld for awarding the scholarship. The applications are then judged and ranked by the selection committee, which is yearly appointed by the board of the fund. Finally the board awards the scholarship.

Response form for a donation

Thank you for your contribution

To thank you for making a difference in the life of a young scientist by supporting the Science@Leuven Fund, we would like to acknowledge you appropriately.

Donor

All contributions over € 40 (since 01/01/2011) are tax deductible. 100% of the sum is used to subsidise the scholarships. € 80 is a symbolic amount. It takes 100 donors to be able to award a scholarship for one year.

Honorary donor

amount: € 800

- You donate € 800 and receive a Tax attestation
- Your company donates € 800 and receives an invoice (+21% VAT) which gives you the right to the following returns:
 - visibility in publications, website ... of the faculty
 - invitation to faculty events

Partner

amount: € 8.000

- You donate € 8.000 and receive a Tax attestation
- Your company donates € 8.000 and receives an invoice (+21% VAT) which gives you the right to the following returns:
 - Visibility in publications, website ... of the faculty
 - Invitations to faculty events
 - VIP-treatment during Christmas Lecture
 - Colloquium on site
 - Opportunity for a 'lecture for students' during the job event

Honorary partner

amount: € 16.000 (= full scholarship)

An amount of € 16.000 enables a foreign student to take a complete master's programme of two years at the Faculty of Science.

- You donate € 16.000 and receive a Tax attestation
- Your company donates € 16.000 and receives an invoice (+21% VAT) which gives you the right to the following returns:
 - You can name the scholarship
 - Visibility in publications, website ... of the faculty
 - Article on (someone in) the company in the newsletter of Science@Leuven
 - Invitations to faculty events
 - VIP-treatment during Christmas Lecture + Awarding the scholarship by someone of the company
 - Colloquium on site
 - Opportunity for a 'lecture for students' during the job event
 - Company visit with the students.
