

KATHOLIEKE UNIVERSITEIT
LEUVEN

Faculty of Science

 **TU Delft**

Department of Biotechnology

Summer School on Metabolomics and Metabolic Networks

Leuven, 7-11 September 2009

Topics

Topics include sampling methods for dynamic multiparametric metabolic analysis and profiling, data generation, data mining and interpretation based on case studies in micro-organisms, plants and mammals.

*An introductory summer course
for Master and PhD students*

wet.kuleuven.be/summerschool

Application deadline - July 3rd, 2009

Venue - Campus Library Arenberg, Leuven, Belgium

Contact - summerschool@wet.kuleuven.be

Kluyver CENTRE | Kluyver Centre for Genomics of Industrial Fermentation
